When the original document is withdrawn, the applicant is not excluded from the lists of persons who submitted documents or the lists of applicants. When documents are recalled, the applicant is excluded from lists of persons who submitted documents to the University, lists of those entering the University and are not subject to enrollment in the University (excluded from the number of those enrolled). If the applicant refuses to enroll, he or she will be excluded from the enrollment pool.

An applicant who has been admitted to a place within the target figures and who wishes to withdraw the original document submits an application for withdrawal of the original while simultaneously submitting an application for refusal of enrollment.

55. Before the expiration of the deadline for admission to places within the target figures for the specific conditions of admission specified in subsection 1 of Article 7 of the Admission Rules, the submitted documents or the original document of the established form are issued to the applicant upon submission of an application in person to the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia, respectively, for withdrawal documents or about the revocation of the original:

within two hours after submitting the application - if the application is submitted at least 2 hours before the end of the working day;

within the first two hours of the next working day - if the application is submitted less than 2 hours before the end of the working day.

56. After the expiration of the period specified in section 55 of the Admission Rules, the submitted documents in terms of their originals (if any) or the original document of the established form are returned to the applicant within one working day after the day the University received an

application for revocation of documents or revocation of the original. If it is impossible to return these originals, they remain in storage at the University.

56.1. When submitting an application for admission through EPGU, the applicant's personal file is formed in electronic and (or) paper form on the basis of information and (or) documents received by the University from EPGU and (or) submitted by the applicant in other ways.

VIII. Entrance tests conducted by the University

57. The Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia conducts:

- entrance tests on the basis of vocational education (with the exception of entrance examinations for applicants to study on the basis of secondary vocational education, for which the Unified State Examination is established by the University as a form of entrance tests (section 16.1 of the Admission Rules - **05.37.01 Clinical psychology**);

- general educational entrance tests for persons specified in section 17 of the Admission Rules;
- general educational entrance tests for admission to places within a separate quota;

The results of entrance tests conducted by the University are valid for admission to the next academic year.

The applicant takes each entrance test specified in this section once. If the general education entrance test requires several subjects, the applicant can take the entrance test once in each subject.

58. Entrance tests are conducted in Russian.

59. Along with conducting entrance tests in Russian, all or individual entrance tests conducted by the University can be conducted in English. Passing the entrance test in English is carried out at the request of the applicant.

60. The Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia conducts entrance tests in person and (or) using distance technologies (on the condition of the identification of applicants when they pass the entrance tests).

61. One entrance test is conducted simultaneously for every applicant or at different times for different groups of applicants (as these groups are formed from among those who have submitted the necessary documents).

For each group of applicants, one entrance test is conducted per day. At the request of the applicant, he may be given the opportunity to take more than one entrance test per day.

62. Persons who did not pass the entrance test for a valid reason (illness or other circumstances confirmed by documents) are allowed to take the entrance test with another group or on a reserve day.

63. If an applicant violates the admissions rules approved by the University during the entrance test, the authorized officials of the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia draw up a report of the violation and the applicant's failure to pass the admissions test without a good reason, and if the admissions test is conducted in person, they also make the applicant leave the place of the entrance test.

64. The results of the entrance test are announced on the official website no later than the third working day after the entrance test. In addition to the official website of the Tver State Medical University, the Ministry of Health of Russia may announce these results in other ways determined by the University.

After the announcement of the results of the written entrance test, the applicant has the right, on the day the results of the entrance test are announced or during the next working day, to become familiar with the results of the test and evaluation of his work performed during the entrance test.

65. Based on the results of the entrance test conducted by the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia, the applicant has the right to file an appeal with the University about a violation, in the applicant's opinion, of the established procedure for conducting the entrance test and (or) about disagreement with the assessment of the results of the entrance test.

The rules for filing and considering appeals are established by the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia.

IX. Entrance tests for disabled people

66. The University when conducting entrance tests for disabled applicants (hereinafter referred to as applicants with disabilities), ensures the creation of conditions taking into account the characteristics of the psychophysical development of applicants, their individual capabilities and health status (hereinafter accordingly - special conditions, individual characteristics).

67. When conducting in-person entrance tests, the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia ensures unimpeded access for applicants with disabilities to classrooms, toilets and other premises, as well as their stay in these premises (including the presence of ramps, handrails, widened doorways, rooms located on the first floor of the building).

68. In-person entrance tests for applicants with disabilities are held in a separate classroom.

The number of applicants with disabilities in one classroom should not exceed:

when passing the entrance test in writing - 12 people;

when passing the entrance test orally - 6 people.

It is allowed for a larger number of applicants with disabilities to be present in the room during the entrance test, as well as to conduct entrance tests for applicants with disabilities in the same classroom together with other applicants, if this does not create difficulties for applicants when passing the entrance test.

It is allowed that an assistant from among the University employees or involved persons be present in the classroom during the entrance test, providing applicants with disabilities with the necessary technical assistance, taking into account their individual characteristics (helping to take a workplace, move around, read and fill out an assignment, communicate with teachers conducting the entrance test).

69. The duration of the entrance test for applicants with disabilities is increased by decision of the University based on the applicant's application, upon provision of supporting documents, but not more than 1.5 hours.

70. Applicants with disabilities are provided with information in a form accessible to them about the procedure for conducting entrance tests.

71. Applicants with disabilities may, during the entrance tests, use the technical means necessary for them in connection with their individual characteristics.

72. When conducting entrance tests, the following additional requirements are ensured, depending on the individual characteristics of applicants with disabilities:

1) for the blind:

- tasks to be completed during the entrance test, as well as instructions on the procedure for conducting entrance tests, are read out by the assistant;

- written assignments are dictated by the assistant;

2) for the visually impaired:

- individual uniform lighting of at least 300 lux is provided (if the entrance test is conducted in person);

- applicants to complete the task, if necessary, are provided with a magnifying device (during the in-person entrance test), it is also possible to use their own magnifying devices;

- tasks to be completed, as well as instructions on the procedure for conducting entrance examinations, are drawn up in larger font;

3) For the deaf and harder hearing:

- the availability of sound-amplifying equipment for collective use is ensured; if necessary, applicants are provided with sound-amplifying equipment for individual use (during the in-person admissions test);

- sign language interpreter services are provided;

4) For deaf-blind people, the services of a sign language interpreter are provided (in addition to the requirements fulfilled respectively for the blind and deaf);

5) For persons with severe speech impairments, deaf applicants and harder hearing ones, entrance tests conducted orally are conducted in written form;

6) For persons with musculoskeletal disorders, impaired motor functions of the upper limbs or absence of upper limbs

- written assignments are dictated by the assistant;

- entrance tests conducted in written form are conducted orally.

73. The conditions specified in sections 67-72 of the Admission Rules are provided to applicants on the basis of an application for admission containing information about the need to create special conditions for the applicant during entrance tests in connection with his disability or limited health capabilities, and a document confirming the disability or limited health capabilities requiring the creation of specified conditions.

X. Ranking of applicants and enrollment

74. Based on the results of accepted documents and entrance tests (if they are held), the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia creates a separate ranked list of applicants for each competition (hereinafter referred to as the competition list). 5) when applying for studies under agreements on the provision of paid educational services -

the presence at the University of a concluded agreement on the provision of paid educational services;

The last name, first name, and patronymic (if any) of applicants are not indicated in the competition list;

6) priority of enrollment,

79. The last name, first name and patronymic of applicants are not indicated in the competition list.

80. Enrollment is carried out in accordance with the enrollment priorities specified in the application (applications) for admission, according to the competitive lists until the established number of places is filled.

Enrollment is carried out in one or more stages according to the decision of the University (except for the stages specified in section 84 of the Procedure). At each stage of enrollment, the University sets the day for completing making notes on the original document acceptance and the acceptance of the original document of the established form to the University, the conclusion of agreements on the provision of paid educational services (hereinafter referred to as the day of completion of making notes on the original document acceptance and its acceptance).

An applicant entering a place within the target figures is enrolled in accordance with the highest priority of enrollment, according to which he is selected through competition for the specified places (for specialty programs - in accordance with section 84 of the Admission Rules).

Applicants to study under contracts for the provision of paid educational services are enrolled in accordance with one or more enrollment priorities. Enrollment in places for training under contracts for the provision of paid educational services is carried out regardless of enrollment in places within the control figures.

81. An applicant for training within the target figures is subject to enrollment in accordance with section 80 of the Admission Rules, if on the day of completion of making notes on the original document acceptance and its acceptance the conditions specified in one of the subsections of this section are met:

1) information about the document of the established form is confirmed by information from the FDDO or the organization, and the EPGU has a note on the submission of the original document of the established form to the University (hereinafter referred to as the mark on the submission of the original to the EPGU);

2) the University has the original document of the established form submitted by the applicant in case of failure to submit a statement of consent to the processing of his personal data.

82. An applicant for training under contracts for the provision of paid educational services is subject to enrollment in accordance with section 80 of the Admission Rules, if on the day of completion of making notes on the original document acceptance and its acceptance, the conditions specified in one of the subsections of this section are met:

1) information about the standard document is confirmed by information from the Federal Educational Institution or the organization, and the University has a concluded agreement on the provision of paid educational services;

2) the University has a certified copy of the document of the established form submitted by the applicant (a copy certified by the University on the basis of the original presented by the applicant) and a concluded agreement on the provision of paid educational services;

82.1. On the day of completion of making notes on the original document acceptance and its acceptance, the applicant can put a note on the submission of the original to the EPGU, submit the original or a copy of the document of the established form, conclude an agreement on the provision of paid educational services before the time established by the University (except for the time specified in subsection 3.1 of section 84 Admission Rules).

If the applicant has submitted an application for admission through the EPGU, he can put a note on the submission of the original to the EPSU or submit the original document of the established form to the University in person or through a public postal operator. If an applicant has submitted an application for admission in person, or through a public postal operator, or through the University's

electronic information system, he can submit to the University the original document of the established form in person or through a public postal operator, or put a mark on the submission of the original at the EPGU (if, when submitting an application for admission, he submitted to the University the insurance number of an individual personal account and consent to transfer information to EPSU).

If an applicant submits an original document of the established form to any organization, the note on the submission of the original on the EPGU is considered invalid.

The original document of the established form submitted by the applicant to the University (a note indicating the presentation of the original at the EPGU) applies to all conditions of admission specified in the application(s) for admission.

When admitted to places within the target figures, enrollment is carried out on the condition that as of the day of issuance of the order of admission, the applicant has not withdrawn the original document of the established form submitted to the University (a note on the submission of the original to the EPGU).

83. Enrollment is formalized by order (orders) of the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia on enrollment.

84. When applying for training within the target figures for Specialist's degree programs in all forms of training:

1) on July 27, 2024, the competition lists will be published;

2) enrollment is carried out in 2 stages:

On July 28 - 30, 2024, the priority enrollment stage is held, at which admission is carried out for persons entering without entrance tests in accordance with Part 4 and (or) 12 of Article 71 of Federal Law No. 273-FZ, entering places within quotas;

On August 3-9, 2024, the main stage of enrollment is carried out, at which the admission of persons admitted based on the results of entrance tests to the main places within the target figures remaining after enrollment without entrance tests is carried out in accordance with Part 4 and (or) 12 of Article 71 of the Federal Law No. 273-FZ (hereinafter referred to as the main competitive places);

3) at each stage of enrollment, a day is set for completion of making notes on the original document acceptance and its acceptance from persons subject to enrollment at this stage:

at the priority enrollment stage - July 28, 2024;

at the main stage of enrollment - August 3, 2024;

3.1) making notes on the submission of the original to the EPGU (acceptance of original documents of the established standard) ends at 12:00 Moscow time on the days established by subsection 3 of this section;

4) the issuance of an order (orders) on enrollment is carried out:

at the priority enrollment stage - July 29 or July 30, 2024;

at the main stage of enrollment - no earlier than August 4 and no later than August 9, 2024;

5) at each stage of admission, the University determines the highest priority of admission, according to which the applicant passes through the competition (hereinafter referred to as the highest priority);

6) at the priority enrollment stage:

a) if the highest priority is the priority of the employer-sponsored education quota, the applicant is enrolled in places within the employer-sponsored education quota;

b) if the highest priority is the priority of other places:

an applicant who passes the competition for the main places within the target figures without entrance tests is enrolled in the specified places;

an applicant who does not participate in the competition (does not pass the competition) for the main places within the target figures without entrance tests and passes the competition for places within a separate quota, is enrolled in places within a separate quota;

an applicant who does not participate in the competition (does not pass the competition) for the

main places within the target figures without entrance examinations and for places within a separate quota and passes the competition for places within a special quota, is enrolled in places within a special quota;

c) when allocating one or more combined quotas, the University independently establishes the order of admission to places within each combined quota;

7) persons enrolled in places within a special quota and a separate quota, as well as places within a combined quota, the places of which belong to a special quota and a separate quota, are excluded from the competitive lists for the main competitive places according to the admission conditions specified in subsection 1 section 7 of the Admission Rules, according to which they are enrolled in places within the specified quotas;

8) if an applicant, enrolled at the priority admission stage, wants to be enrolled in the main places within the University's target figures at the main stage of admission, he, no later than the day of making notes on the original document acceptance and its acceptance at the main stage of admission, submits an application for refusal from enrollment carried out at the priority enrollment stage. Persons who are enrolled at the priority enrollment stage and have not submitted an application for refusal of enrollment until and including the day of making notes on the original document acceptance and its acceptance at the main stage of enrollment are not subject to enrollment at the main stage of enrollment;

9) if an applicant, enrolled at the priority admission stage, wants to be enrolled in the main places within the control figures in another higher education organization at the main stage of admission, he no later than the day of completion of marking the original and acceptance of the original at the main stage of admission submits in the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia, in which he was enrolled at the stage of priority enrollment, an application for revocation of the original with the simultaneous submission of an application for refusal of enrollment or an application for revocation of documents;

10) unfilled places within the combined quota, by decision of the University, are used as places in one or more quotas, which include places in the combined quota;

11) places that become vacant due to the fact that persons enrolled at the priority enrollment stage are excluded from the number of those enrolled are added to the main competitive places.

85. When admitting students under contracts for the provision of paid educational services, the University independently sets the deadline for publishing competitive lists, the timing and stages of enrollment in accordance with the order of the University Rector.

86. Unfilled places within the quotas are used to enroll persons entering the main places within the target figures without entrance tests and based on the results of entrance tests.

87. If after completion of enrollment there are unfilled places, the University may, on the basis of competitive lists, carry out additional enrollment for the specified places.

88. When carrying out additional enrollment in places within the framework of the target figures for Specialist's degree programs, making notes on the original document acceptance and its acceptance (acceptance of original documents of the established form) begins on August 10, the publication of orders for enrollment is carried out no later than August 14.

Additional enrollment in Bachelor's degree programs / Specialist's degree programs under agreements for the provision of paid educational services is carried out within the time limits established by the University.

Additional enrollment is carried out in accordance with the rules established by the University.

If an applicant, enrolled in places within the target figures, wants to be enrolled in places within the target figures at the stage of additional enrollment in another organization, he submits to the University no later than the day of making notes on the original document acceptance and its acceptance at the stage of additional enrollment, an application for withdrawal of the original with the simultaneous submission of an application for refusal of enrollment or an application for withdrawal of documents.

89. When enrolling for training under contracts for the provision of paid educational services, the established number of places may be exceeded by decision of the Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia. When making this decision, the University enrolls all applicants who have scored at least the minimum number of points, or establishes the amount of competitive points required for enrollment (hereinafter referred to as the established amount of competitive points), and enrolls applicants who have scored at least the minimum number of points and have the amount of competitive points (the sum of points for each entrance test and for individual achievements) is not less than the established amount of competitive points in accordance with the order of the Rector of the University.

90. The University generates information on enrollment in the form of separate lists for each competition without indicating the last name, first name, patronymic (if any) of applicants, indicating the insurance number of an individual personal account (if any) or a unique code assigned to the applicant, the amount of competitive points, the number of points for entrance tests and for individual achievements, basis for admission without entrance tests in accordance with Part 4 and (or) 12 of Article 71 of the Federal Law of December 29, 2012 No. 273-FZ. The specified information is posted on the official website on the day the relevant enrollment orders are issued and must be available to users of the official website within 6 months from the date of their publication.

XI. Admission to employer-sponsored education

91. The Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia establishes employer-sponsored education quota in accordance with the procedure for its establishment approved by the Government of the Russian Federation

92. For admission to places within this quota, a single-profile competition is held.

When calculating the number of specialties and (or) areas of training in which an applicant simultaneously participates in the competition, all specialties and (or) areas of training in which he participates in the competition for places within the employer-sponsored education quota are taken into account.

93. Admission to employer-sponsored education is carried out in accordance with the regulations on employer-sponsored education and the standard form of an agreement on employer-sponsored education, established by the Government of the Russian Federation.

94. The Federal State Budgetary Educational Institution of Higher Education of the Tver State Medical University of the Ministry of Health of Russia conducts admissions to places within the employer-sponsored education quota in accordance with proposals for concluding agreements on employer-sponsored education placed by the federal government body, the government body of the constituent entity of the Russian Federation, the local body government, a legal entity specified in Part 1 of Article 71.1 of the Federal Law of December 29, 2012 No. 273-FZ (hereinafter referred to as the customer of targeted training), on a unified digital platform in the field of employment and labor relations "Work in Russia" (hereinafter referred to as the platform "Work in Russia"), and other information contained on the "Work in Russia" platform.

95. In the case of a detailed employer-sponsored education quota for a specialty, area of training in accordance with the procedure for its establishment, approved by the Government of the Russian Federation, by establishing the number of places indicating the employers of the employer-sponsored education (hereinafter - detailed employer-sponsored education quotas):

The University holds a separate competition for each detailed employer-sponsored education quota;

the applicant participates in the competition according to one detailed employer-sponsored education quota for a given specialty or area of training;

if there are places within the employer-sponsored education quota for which employers are not specified, such places are a detailed employer-sponsored education quota, in the competition for which applicants who have entered into a employer-sponsored education agreement with employers

not specified under other detailed employer-sponsored education quotas participate;

unfilled places in detailed employer-sponsored education quotas are used in accordance with section 86 of the Admission Rules.

XI.1. Admission to places within a separate quota

95.1. The right to admission to Specialist's degree programs at the expense of budgetary allocations from the federal budget, budgets of constituent entities of the Russian Federation and local budgets within a separate quota are granted to persons specified in Part 5.1 of Article 71 of the Federal Law of December 29, 2012 No. 273-FZ.

95.2. The following applicants are accepted for places within a separate quota:

1) without conducting entrance tests (with the exception of additional entrance tests of a creative and (or) professional orientation):

persons specified in Articles 1 and 7 of part 5.1 of Article 71 of the Federal Law of December 29, 2012 No. 273-FZ;

children of persons specified in sections 2-4 of part 5.1 of Article 71 of Federal Law No. 273-FZ, children of military personnel and employees specified in section 6 of Part 5.1 of Article 71 of Federal Law dated December 29, 2012 No. 273-FZ, if these persons, military personnel, employees died or were injured (wounded, injured, concussed) or sick while performing military service duties (official duties) during a special military operation (combat operations on the territories of foreign states) or were awarded the title of Hero of the Russian Federation or awarded three Orders of Courage;

2) based on the results of the Unified State Exam or entrance tests conducted by the University, at the choice of applicants - other persons specified in Part 5.1 of Article 71 of the Federal Law of December 29, 2012 No. 273-FZ.

95.3. Applicants to places within a separate quota based on the results of the Unified State Examination or entrance tests conducted by the University can:

pass general education entrance tests (regardless of whether the applicant participated in the Unified State Examination);

use the results of entrance tests on the basis of vocational education (if you have the right to take entrance tests in accordance with section 16 of the Procedure);

use the results of the Unified State Examination.

The results of general education entrance tests passed in accordance with section two of this section are not taken into account when admitting to places within a special quota, to places within the employer-sponsored education quota, to main places within the target figures, to places for study under contracts for the provision of paid educational services, except for the case specified in section 97.4 of the Admission Rules.

95.4. If applicants for places within a separate quota based on the results of the Unified State Examination or entrance tests conducted by the University are also among the persons specified in section 17 of the Admission Rules, the results of the entrance tests taken by them in accordance with section 17 of the Admission Rules are used for admission both to places within a separate quota and to other places.

95.5. Information about persons applying for places within a separate quota, posted by the University on the official website and (or) posted on EPSU (lists of persons who submitted documents, information on the results of entrance tests, competitive lists, information on enrollment, other information posted on the official website and (or) on the EPGU), is formed indicating the unique code assigned to the applicant, without indicating the surname, first name, patronymic of the applicant, and also without indicating the insurance number of the individual personal account.

95.6. Admission to places within a separate quota is carried out at the priority enrollment stage. The competitive list for places within a separate quota includes:
